

SeaWorld® Orlando 1-Day Park Plan

We frogs feel right at home in this lush, tropical paradise of a theme park that features animal attractions, exhibits, aquariums and shows. While there are some world-class rides at SeaWorld® Orlando, the animal shows are what most people come to see. Show times are staggered throughout the day, typically starting in the late morning and ending in the late afternoon. During summer and Christmas Celebration, the park is open later and features additional shows and a fireworks finale. We recommend arriving at shows at least 20 minutes prior to show time for the best seats.

Our favorite exhibit is Pacific Point Preserve, where California sea lions and harbor seals swim and play among the waves and bask in the sun. You can even get a chance to feed these flippered friends! Nearby is Journey to Atlantis®, a combination dark ride and water ride with wait times that spike during the hottest months. Manta® and Mako™ are not to be missed if you are a coaster fan — they are two of the best in Florida! The fear factor keeps many away, but you'll still find the lowest waits within the first and last two hours of park operation.

Planning your day largely depends on the number of available shows and show times. For this reason, we've included the following list of park priorities.

SeaWorld® Orlando Show Priorities

SeaWorld® Orlando 1-Day Park Plan

We've created this one-day park plan for SeaWorld® Orlando so you can experience the most popular rides before the day's shows begin, and allow yourself time to experience the shows, aquariums and exhibits. This plan assumes you do not have Quick Queue Unlimited, and are starting at park opening and finishing in the evening. Because the number of SeaWorld® Orlando shows and show times vary depending on the season, you may need to adjust the plan to fit current show times. We recommend checking the SeaWorld® Orlando website a few weeks before your visit to see the expected show schedule.
